**Indicates Super Doctors Hall of Fame. *Indicates selection to the Southern California Super Doctors list. (RS) Indicates selection to the 2021 Southern California Rising Stars list

Our 39 board-certified/board-eligible, fellowship-trained, nationally and internationally renowned physicians are highly regarded for their experience and expertise in treating orthopedic conditions and injuries in both children and adults, including several elite NBA players. From sports medicine to minimally invasive surgery, pain management to joint replacement, and regenerative medicine to physical medicine and rehabilitation, we provide world-class, specialized care for the ankle, back, elbow, foot, hand, hip, knee, neck, shoulder, spine, and wrist. Our physicians also teach innovative orthopedic surgery techniques to surgeons around the world. Our SCOI Fellowship Program in Sports Medicine, Arthroscopy, and Reconstructive Surgery is instrumental in training the experts of tomorrow, and our research and education foundation (SCORE) is dedicated to the pursuit of excellence in orthopedic practice, education, publishing, and research endeavors. While our reputation is international in scope, we are also the preferred local choice and widely regarded for our support of community efforts and athletic teams.

Experience Excellence.
